Jim knows SEO!

After being in the search engine industry for almost 11 years now, Jim is considered a Canadian SEO specialist, with great knowledge and skills in getting his company's clients up and up in their channel SEO rankings.

A part of that cost effective Canadian SEO reputation is the ability to be both a Hamilton SEO specialist as well as a wider Canadian SEO specialist too...i.e. Jim understands the newly defined LOCAL Place Search algo and gets his clients ranked on page 1!

But more than that, Jim is able to pass along much of that expertise via his Speaking Engagements which have included Seminars, Workshops and Conferences, where he has spoken on all things SEO!

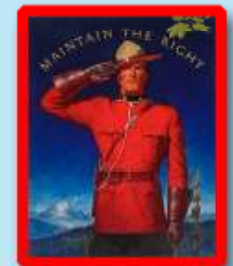

Each of Jim's Presentations offers up tangible strategies and takeaways that work to generate new and better Search Engine rankings, delivered in an entertaining style!

Call to learn how each session can be customized for your own audience too!

Most Popular Presentations...

- Small Biz SEO!
- LinkedIn & SEO!
- SEO for Insurance
- Legal Firms & SEO
- Social Media 101
- Online Marketing
